ABOUT

Motivated and detail-oriented MERN Stack Developer with a passion for creating user-friendly and scalable web applications. Adept at building full-stack solutions using modern technologies with a strong focus on performance and clean code.

EDUCATION

JSpiders, Bengaluru,India — MERN Stack Development (Nov 2024 - Jun 2025)
Coursework: Web Development, JavaScript, React, Node.js, Express.js, MongoDB,SQL

Nandha College of Engineering, Erode — B.E. Electronics and Communication Engineering (2019 - 2023)

TECHNICAL SKILLS

- JavaScript
- React.js
- Node.js
- Express.js
- MongoDB
- SQL
- Html
- CSS
- Bootstrap

SOFT SKILLS

- Debugging
- Code Optimization
- Problem Solving
- Team work

TOOLS

- VS Code
- GitHub

LANGUAGES

- English
- Tamil

PERSONAL PROJECTS

Weather App

- A responsive web app that fetches and displays real-time weather data using an external API. Built with HTML, CSS, and JavaScript, featuring a clean and user-friendly interface.

Todo List App

- A dynamic task management tool that allows users to add, delete, and mark tasks as complete. Developed using HTML, CSS, and JavaScript for smooth interactivity.

Stopwatch App

- A fully functional stopwatch with start, stop, and reset controls. Built using JavaScript and styled with CSS for a responsive layout.

Calculator

- An interactive calculator that performs basic arithmetic operations. Created using HTML, CSS, and JavaScript with a clean, intuitive design

E-commerce Website

- A static, responsive website for an online clothing store. Designed using HTML, CSS, and Bootstrap to showcase layout and visual presentation skills.

Academic Projects

- **Automatic Waste Segregation System** using Arduino UNO
- Designed and developed a smart waste segregation system that classifies waste into dry, wet, and metal categories using sensor-based automation.
- Technologies Used: Arduino UNO, Ultrasonic Sensor, Proximity Sensor, IR Sensor
